

# Bevelling machine VARGA 2

HIGH EFFICIENCY

SUCTION DEVICE AND DUST BAG

VA 2 is a new appliance to bevel plastic edges of all kinds on non-ferrous metals such as aluminium, brass, etc.

Diamond disc: fibreglass plates, printed circuits, etc.

## Equipment:

Milling cutter of cemented carbide	Ø 120 mm
V-guide	280 mm
Depth regulator	
Suction device and dust bag	
Motor	220 volts or 110 volts
Output	350 watts
Speed	15 000 rpm
Weight	5 kg net, 6 kg gross
Packaging	30 x 20 x 20 cm cardboard box

## Accessories:

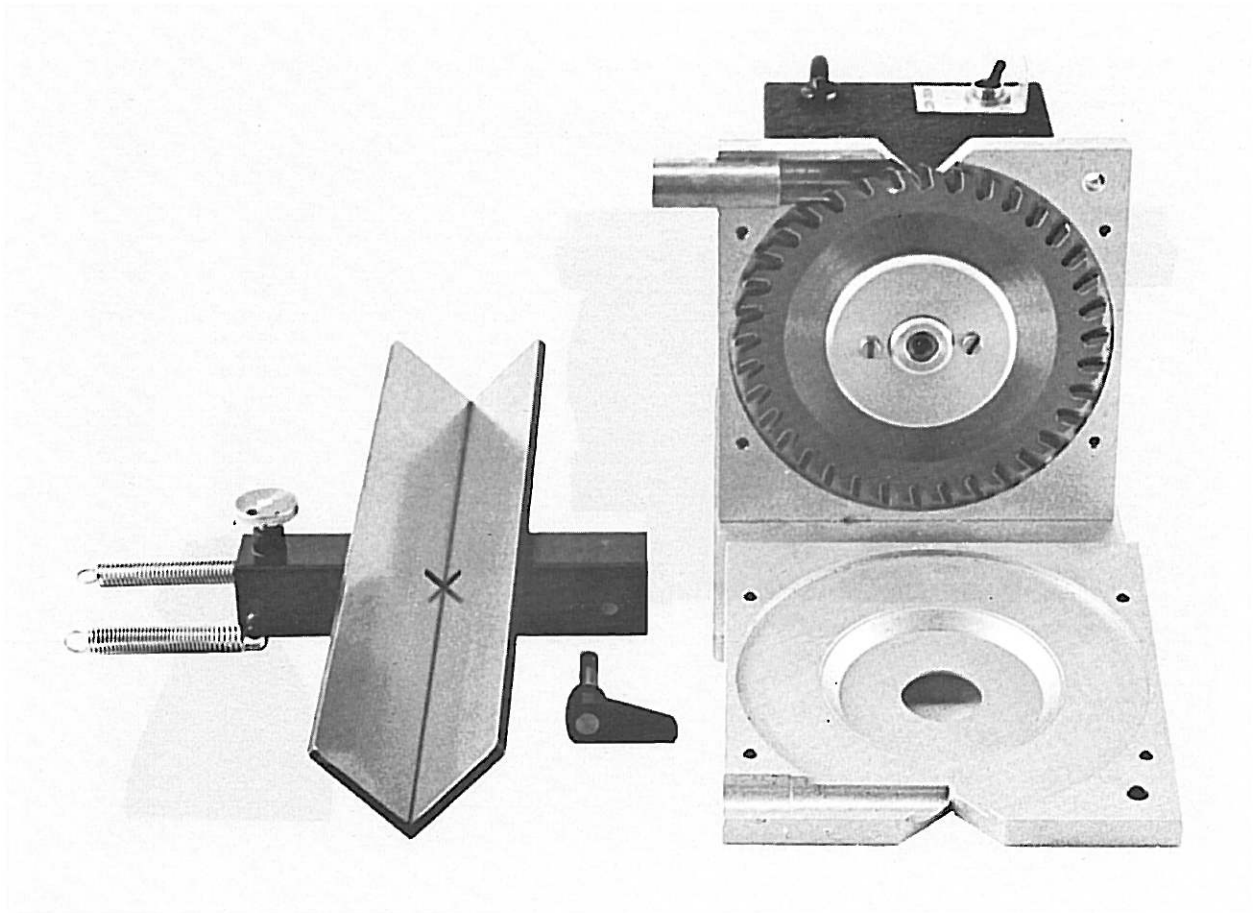

Diamond disc	Ø 120 mm
Movable plate to protect upper surfaces	

# Bevelling machine VARGA 2

SIMPLE

NEW

CLEAN

With the VA 2, bevelling is very easy. The required depth is regulated by means of a simple knurled-head screw. Dust is removed so that the place of work always remains clean.

Replacing the milling cutter:

- \*\* Disconnect the power plug
- \*\* Remove the springs below
- \*\* Remove the winged nut
- \*\* Remove the V-guide
- \*\* Remove the protection plate

Before assembling, clean carefully

A movable plate (accessory) provides effective protection for the upper surfaces when handling polished materials, printed circuits, etc.

All rights of modification reserved.
